THINK TANK

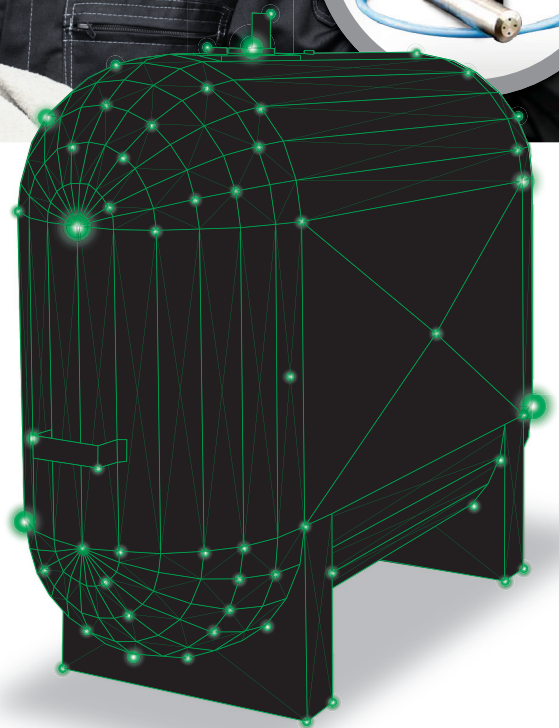

MANAGING YOUR BULK INVENTORY SO YOU DON'T HAVE TO.

ELECTRONIC INVENTORY MANAGEMENT.
ANOTHER EXCLUSIVE WAKEFIELD ADVANTAGE
TO HELP YOU MANAGE YOUR BUSINESS.

You have other things to focus on.
Let Wakefield Think Tank focus on your inventory.

- Vendor managed inventory and delivery.
- Help eliminate run-outs and emergency deliveries.
- Provides you with remote bulk tank monitoring through a combination of hardware, sensors, and software applications.
- 24/7 delivery of critical information; tank levels, run rates, and other valuable metrics.

WAKEFIELD THINK TANK'S 3 MAIN COMPONENTS

Monitors

Wakefield will take care of your bulk tank's monitors, so you can take care of your business.

- Wakefield will install wireless monitors in your bulk tanks at no cost to you.
- All repairs and maintenance of monitors are handled by Wakefield.
- No power or internet access required at the tank.

Secure Communication

All data is relayed through a secure online transfer system that stores and sends real time data to your business and Wakefield.

Back Office

- Monitor your inventory levels and consumption rates from your computer, or when you are away from your shop.
- Wakefield will check your tank levels and deliver in real time to be sure you never run empty.
